

THE PUBLIC SCHOOLS IN 1951

By E. M. WELLINGS

On the whole the story from the Public Schools in 1951 was decidedly encouraging. There were no batsmen as good as M. C. Cowdrey and M. J. Stewart of the previous year, but the general standard looked good, and the leading bowlers seemed an improvement on their immediate predecessors. Most encouraging of all the features of Public School cricket was the more robust attitude of the young players. There was more aggressive batting, more play designed to win matches. The timid approach, which suggested in former seasons that many began matches more in the vague hope of avoiding defeat than of winning, was less in evidence.

The two representative games at Lord's in August showed the will-to-win of the boys, though the start was far from being auspicious. When due allowance has been made for the anxiety of young cricketers playing in a trial match at Lord's, it must be said that there was too much pawky, negative batting on that first day. At the time I noted a general lack of enterprise and the fact that the drive was largely missing in the make-up of the players, C. Dean, the Highgate left-arm slow bowler, was allowed to keep going with two fielders at silly mid-off and nobody deep in front of the wicket. Yet, remarkably, he had a man on the square-leg boundary. In a bowler of his type this is an admission of weakness in control. Dean's weakness, however, was not apparent, and this misuse of a fielder seemed to be an unnecessarily modest move.

On the first day also J. A. Kidd, a slow off-spinner from Marlborough, escaped vigorous challenge when he bowled to four short legs with nobody in the deep beyond them. And that on a true pitch! The short leg cult is spreading fast in Schools cricket and requires checking. A packed leg field is sound placing when the off-spinner can make the ball bite, but it is mainly a negative form of cricket when the pitch is placid. In such circumstances I suggest the young off-spin bowler would be more profitably employed attacking the off stump with a predominantly off side field. The off break can pave the way to success for the straight ball. Tom Goddard took many wickets when batsmen, allowing for turn which did not exist, played inside his deliveries. If the young off-spin bowler can also develop a ball which runs away from the batsman so much the better, but the straight one can be equally effective if the opponent is led to expect an off break. I should add that even when a ring of short-leg fielders is justified, men in the deep are essential. Without them the off-spinner must tend to bowl short of an attacking length. Kidd did so on this occasion.

After the weak start the representative Schools players procoeded to show that there was another, very different side to their make-up. The cricket and the spirit in which they played it improved steadily, and on the fourth and last day of their stay at Lord's their storming finish sent all away in a happy frame of mind about the Public Schools.

N. A. Paul, a big, strong fellow from Cranleigh, began the improvement. He did, indeed, do much to compensate for the general level of dull batting mediocrity on that first day by clouting a century for the Southern Schools. At 2.30 p.m. the total was 102 for eight and Paul was 13. When he was out eighty-three minutes later he had made 117, and his side reached the respectable total of 236. Paul showed himself to be a splendidly aggressive batsman with plenty of strokes, behind which he generously put his considerable weight. Purists could fault some of these strokes. fin captious mood, but none could fault his attitude to the game. He was the sort of batsman whose first aim was to impose his will on the bowlers. He gave an object lesson to the other boys in the art of making batting as easy as possible by making the bowlers apprehensive. Moreover, he showed himself able to suit his game to his team's needs and was an adept at farming the bowling.

The climax followed four days later, when Public Schools, challenged by Combined Services to score 188 in 115 minutes, won gloriously by three wickets. Paul again distinguished himself by hitting 41 in half an hour, but the great man on this occasion was A. C. D. Ingleby-Mackenzie, a left-hander from Eton. He lasted only until the ninth over of the innings, but by then he had scored 58 out of 77, charging past 50 in twenty minutes, and success for the boys had already become probable. This was an innings requiring the lavish use of superlatives. Ingleby-Mackenzie clearly had much to learn before becoming fitted to play really good class bowling with success. In particular his back play was as yet sketchy, but he had such powers of attack and such willingness to use them that I prefer to dwell on the many good features of his batting.

I can remember the speed with which the ball used to fly off the bat of S. A. Block, of Marlborough, some twenty-five years back, but I doubt if his force equalled Ingleby-Mackenzie's. In this respect his batting was quite exceptional for a boy. His driving was strong on each side of the wicket, but I was most impressed by the power of his square cutting off the front foot. This method of cutting has become unfashionable of recent years, but there is no doubt that It is possible to hit the ball much harder off the front than off the back foot, and there are now at least as many deliveries to which this stroke is suited as there used to be.

As Ingleby-Mackenzie had made 67 in the first innings he played an outstanding part in the success of the schools. For Eton he scored 720 runs in 14 innings, and, if in this year I am reluctant to discuss who was the best school batsman, he was surely the most interesting, a compact fellow with a keen eye and a highly

developed sense of timing.

Two others who contributed notably to the triumph were W. Knightley-Smith of Highgate and C. S. Smith of William Hulme's, Manchester. Knightley-Smith was the captain, and a particularly good one, so that the final schools team did not at all give the impression of being a scratch collection. He handled the side well throughout, and it was evidence of his sound strategy that, when the saving of time was vital, he chose to open that final hectic innings against the Services with himself and Ingleby-Mackenzie, both left-handers. Knightley-Smith too was a good bat, a neat maker of controlled strokes though with an inclination to play with rather too much space between bat and pads. Further, he was a good judge of a run, and throughout their dash for victory against the Services the Schools showed admirable enterprise in running. If they overdid it towards the end and bordered on rashness, that was not a bad fault. Running of the order which occasionally sacrifices a wicket is preferable to that ultra-cautious sort which prodigally ignores easy runs.

Smith was an all-rounder who had already played with some distinction for Lancashire. He had been a leading Schools player the previous year. In 1951 he was clearly a more mature player than the others. He was perhaps the soundest batsman, one whose bat looked solidly broad in defence, and he was certainly the best opening schools bowler since the war. Smith revealed the potentialities of a top class fast bowler. His approach to the wicket, strikingly reminiscent of Lancashire bowler Dick Pollard's run-up, and action were as good and as well co-ordinated as one could wish to see. It was clear that Smith had the prospect of a splendid

cricketing future as an all-rounder.

Paul, too, was an all-rounder. A quick medium left-hander, he shared the opening attack with Smith. His style was not so pure. He had a full-chested action, but, if he could not then make full use of his body, he was able to make the ball move away from the batsman. The schools were largely composed of all-rounders. Two of the other three main bowlers, R. A. Gale of Bedford Modern and R. V. C. Robins of Eton could both be so classed—though the latter's batting possibilities tended to be overlooked-and A. C. W. Lewis, who was chosen as a batsman, ranked also as an important bowler at Repton.

In the trial game Gale proved himself the pick of three off-spin bowlers. H. R. P. Thompson of Cheltenham was like numerous school off-spinners who have come to Lord's in recent years, one who relied almost entirely on his ability to turn the ball. He had a languid action, in which all the movement came from the arm,

and hence he was lifeless off the pitch. Gale, by contrast, had a more vigorous delivery and used his body to augment his arm wing. He was both quicker through the air and more lively off the pitch than Thompson. Kidd dropped into place between these Wo. It was easy to understand Thompson and Kidd being successin school cricket but equally easy to see that they would have

madd to their technique on leaving school.

Robins was the most interesting bowler of all. Judgment on him should be suspended, for he could become very good indeed or could follow the many youthful leg-break bowlers who have come to grief. He is approaching a fork in the road where twin signs point respectively to "Success" and "Failure." At Lord's he dd not achieve much. He sent down some poor stuff, but he also put down some "fizzers." Young Robins might be described as the subject of an experiment by his father, R. W. V., who has aimed at developing the maximum amount of spin in conjunction with unusual pace. His father has not taught him on a short-term basis but with an eye to the more remote future. So he has not been allowed to toss the ball high into the air, a method ensuring success against apprehensively firm-footed youngsters, but has been groomed to meet quick-footed batsmen. For his age he is undoubtedly an accomplished bowler. The next few years will show the wisdom or otherwise of the experiment. Whatever the outcome, the departure from the usual can be defended by reference to the results obtained from young leg-spin bowlers differently guided. They have proved the most fragile of all young cricketers. Such a very high proportion of them fail to realise early promise that I have been coming to the conclusion that it may be safest to dissuade boys from bowling leg breaks and googlies until they are 20.

The attack was completed by Dean who, like Lock of Surrey, relies more on flight than spin. Highgate seldom seem to be without a good left-hander. Dean was the latest in this category. He bowled well at Lord's, tossing the ball well up to the batsmen in attacking manner and varying his deliveries intelligently. Highgate have every reason to be proud of their two representatives. They were not only good players but were also knowledgeable and indicated that cricket in the broad sense is well taught at their school.

Altogether the Public Schools had a well-balanced team against the Services. With four accomplished batsmen among the bowlers and M. E. L. Melluish, who scored 913 runs for Rossall, as wicketkeeper they had any amount of batting. Melluish was an opener, a sound little player who got well over the ball. He was also an excellent wicket-keeper, as was M. D. Scott of Winchester who was his rival in the trial game. There was perhaps not much to choose between them as stumpers, but Melluish looked certainly the more accomplished batsman. The standard of school wicket-keeping is good, but I would make one criticism. The big, square-fronted pads, more suited to a hockey goalkeeper, seem to be popular. Such pads suggest that young stumpers think that part of their job can be done by their legs. The wicket-keeper's pads are merely worn to guard against injury if the hands fail to do their job. To increase mobility they should indeed be smaller than those worn by batsmen, who need to protect the left sides of their legs. The wicket-keeper should require protection only on the front of the leg and can dispense with the side pieces which are usual on batting pads. In fact the slim pad used by our fathers is the best for a stumper.

The schools team was completed by batsmen M. J. K. Smith of Stamford, C. C. P. Williams of Westminster and A. C. W. Lewis of Repton. Smith, who made 654 in ten completed innings for his school, was a good back-foot player with the hook among his strokes. At Lord's he did little scoring off the front foot. That he occasionally made a pleasing off drive suggested that he lacked confidence more than ability in the making of such strokes. It was pleasant to see a Westminster player in the side as a sign that the school's cricket has finally recovered and overcome the handicap imposed by exceptional war-time and immediate post-war difficulties. Williams was a big, powerful batsman. His firm strokes all round the wicket explained his 671 runs for Westminster. Lewis was a strange player. His method was such as to reduce his scoring efforts largely to deflections and pushes. He started his downswing from the direction of cover and his bat approached the ball in a loop. He could not apply force in that way, and he was inclined to play dangerously across a straight ball.

Lewis was perhaps fortunate to win a place in the final eleven. However, none of the alternative batsmen in the trial game who had a chance shaped particularly well. R. O'Brien from Wellington was perhaps next in line for selection, but he was weak against the high-pitched spinners of J. J. M. Barron (Rugby), who was really quite an ordinary leg-break bowler. M. A. Eagar, another Rugbeian, was a decidedly useful schoolboy bat, but rain on the second day of the trial deprived two batsmen on the Rest side of their chances. N. Armstrong (Trent) barely beat the rain to the wicket, and R. H. Chadder (Malvern) did not bat at all. We did, however, note Chadder as a particularly fine member of a good fielding side on the first day. The fielding generally was satisfactory, and on the final day C. S. Smith made a superb catch at short leg when M. J. Stewart of the Services team hit the ball well and truly at him.

It is always difficult to discuss the merits of the individual schools. Yet there is not the slightest doubt that Highgate had the finest record. They finished every match, winning fourteen and losing only to Aldenham. In a period when drawn matches are on the increase this was a record which deserves all the praise and

publicity it can be given. It should be contrasted with the sorry record of Shrewsbury, whose slow batting caused eleven of their fourteen games to be drawn. Highgate owed their success largely to the support given by the fielders to their spin bowlers, Dean and J.C. Dare, who was an off-break bowler. Between them these two took 137 wickets and obviously formed an outstanding combination.

Other schools had excellent records. M. J. K. Smith led Stamford to success in all their inter-school matches, and against other schools St. Peter's, York, won six and tied their other game. Their outstanding performance was to put Rossall, including the free scoring Melluish, out for 49. Then Repton went through the season unbeaten, and Eton, who meet particularly strong opposition, were clearly as good as any school side.

High among the season's performances must rank Radley's 367 for nine against Sherborne, for they made that great total in little above four hours. Fast scoring, too, featured the success of P.J. Wacker for King's School, Canterbury. His three centuries in an aggregate of 720 were all scored at the rate of 60 an hour. When such aggressive instances of batting are added to those of Ingleby-Mackenzie and Paul at Lord's it is clear that there is increasing will to win among Public School players, which should in time benefit English cricket generally.

There were two instances during the season of a bowler taking all ten wickets against a rival school. M. A. Stokoe of King's School, Bruton, took ten for 29 against Downside, and L. C. Johnson, the Mercer's fast bowler, took all ten Bancroft's wickets for 14. Curiously Johnson did not approach such form again and was generally disappointing.

In addition to those already mentioned there were numerous successful all-rounders. At Alleyn's J. F. Pretlove, the captain, with 508 and 42 respectively, scored more than twice as many runs and took more than twice as many wickets than anyone else. On paper the most remarkable all-round performance was that of R. G. Woodcock for Worcester Royal Grammar School. He scored 600 in 24 innings and took 93 wickets at 6.81 each. R. W. Street's all-round form for Bedford also deserves particular mention, for he was only 15.

The inter-school matches at Lord's preceding the representative games produced some good cricket, but unfortunately no definite results. Recently the Western Schools, Clifton, Marlborough and Cheltenham, have usually been on top. In 1951 Tonbridge, Rugby and Haileybury hit back at them. Tonbridge overcame the loss of Cowdrey, who had been more than half their side in the previous two seasons, remarkably well, and Rugby were better than they have been for several years. Yet Rugby players still give the impression of being ill versed in the finer points of cricket. With more knowledge they might well have beaten Marlborough instead

of having much the better of a drawn game. As an instance, they began the innings with their fielders so deep that a single could be taken safely for any stroke on the off side. They had not been taught to make the new batsman look anxiously round the field for somewhere to steal his first run.

It is not enough to teach the young cricketer to bat and bowl and catch. Much more than that goes to the winning of matches. But in a year when there were so many encouraging signs I would not end on a critical note. The year 1951 gave us much spirited play, and we can hope that in 1952 enterprise will be the key-note everywhere. Highgate with fifteen definite results from as many matches have set all other schools a target at which to aim, and they set it during a season of adverse cricketing weather.

THE SCHOOLS

The name of the captain is indicated thus †
Innings marked * are not out.

ALDENHAM SCHOOL

With only three colours remaining. Aldenham underwent some reconstruction, and as the General Certificate examination interfered with early practice they took time to settle down. Happily, J.E. Kentish, the captain, set an excellent example in the field and he was also the best spin bowler, but of thirteen matches played three were won against six lost. As the season advanced such improvement took place that the last fixture brought a notable victory over Highgate, who won all their other matches.

ALLEYN'S SCHOOL

Alleyn's maintained their fine form and were beaten only once—by M.C.C. The solitary defeat by another school in three years occurred in 1949. That no more than five of the fourteen matches were won and eight drawn was due to lack of power in the middle batting caused by the necessity of having to concentrate on defence against the stronger bowling of club sides. J. F. Pretlove, in his fifth season in the eleven, was a keen and always improving captain as well as a capable all-rounder. His left-handed batting advanced and he showed more skill with left-arm slows. He deserved his place in the first Schools match at Lord's. Also prominent was A. C. W. Younger, a useful off-spinner and sound opening batsman.

ALLHALLOWS SCHOOL

After a depressing start, Allhallows quickly recovered and, showing their best form against stronger club sides, won six of thirteen matches, losing only two. K. F. Keightley, the captain, served the side splendidly. He believed in attacking the bowling and produced a wide range of strokes, and his policy of concentrating on length and direction in bowling was well repaid. W. P. Thurgood, if ungainly and stiff in style, played several useful innings. He also showed promise as a bowler, but circumstances compelled him to be used as deputy wicket-keeper, and in this he also proved competent.

AMPLEFORTH COLLEGE

Although the eleven contained some good cricketers, Ampleforth were not as successful as in previous years. Of eleven matches played, three were won, three lost, and one ended in a tie. S. H. M. Bradley and O. R. Wynne were reliable batsmen and M. W. Hattrell an outstanding wicket-keeper who should do well in 1952. Most of the bowling was done by P. D. Blackledge, who needed the help of another real attacking player.

BEAUMONT COLLEGE

Beaumont had good reason to be satisfied with their performances. Of twelve matches, they won four, and although three were lost they held a strong position at the end of the five drawn games. In a most exciting finish at Lord's they beat Oratory by two runs. Throughout the season, and particularly in this match, A. B. Wallerstein proved himself an able captain. The batsmen proved consistent, with A. D. Russell, who made four scores of over 50, the pick. As opening bowler, Wallerstein carried all before him.

BEDFORD SCHOOL

After losing the first match to Dulwich College, Bedford were not again defeated and, with victories over Oundle, Tonbridge, Aldenham and three club sides, enjoyed a most successful season. D. R. Wynn-Williams made two centuries and shared in several hard-hitting partnerships with M. S. Meeson. The spin bowlers, the 15-year-old R. W. Street and R. A. Collinge, were accurate, and their batting also showed much promise. Excepting D. A. W. Evans and R. J. Manley, all those in the averages will be available in 1952.

BERKHAMSTED SCHOOL

There were no brilliant individualists in the Berkhamsted team, but they worked well together and enjoyed a good deal of success, winning five of twelve matches and losing only three. In a grand finish to the game with K.C.S., Wimbledon, Berkhamsted came within two runs of victory before their last wicket fell. R.P. Denny did some fine bowling and G. J. Reeve was the best batsman. A. O'Shea showed promise for the future

BISHOP'S STORTFORD COLLEGE

The Bishop Stortford eleven, considered their best all-round combination since 1938, played twelve matches, winning four and losing three. At times M. H. Bull, the captain, handled his men well, but he did not show the form expected. P. E. Collett and C. I. M. Jones occasionally batted really well, and Jones was also a very useful change bowler. Most work in bowling fell on D. T. Kilian, who, although not quite so good as in 1950, proved steady. In addition he was a capable batsman, possessing the ability to knock good bowlers off their length.

BLOXHAM SCHOOL

Bloxham were a very young side, only one member of the eleven being seventeen. Considering their inexperience they did remarkably well, for although winning no more than two of twelve engagements they lost only four. C. G. Nicholl quickly engendered a fine spirit in the side and his superb fielding produced enthusiasm. He also played several valuable forcing innings. J. F. H. Blake was the most stylish batsman, and against Dean Close, when hitting 86 not out, gave a beautiful display of controlled aggression. J. C. Theobald proved the most consistent bowler, always steady and often penetrating, and W. B. Blackwell gave him good support. As most of the team remain and the Colts were unbeaten, Bloxham face the future optimistically.

BLUNDELL'S SCHOOL

With six matches won, four lost and two drawn, Blundell's could look back on 1951 with full satisfaction, for their cricket was always played in the right spirit with never a dull game. Three fixtures produced decisions by one wicket, two going against them, and two others were won by courageous hitting when all seemed

lost. R. D. Hay, brilliant at cover, led his side excellently D I Hollands, an accomplished all-rounder, bowled leg-breaks and googlies enthusiastically, and A. D. W. Maclean, in his fourth ver in the eleven, again proved himself a neat and capable wicket. keeper. Most satisfactory was the appearance of a 15-year-old all-rounder in D. J. Shepherd, who, introduced as an off-spin bowler, developed into a sound opening batsman.

BOOTHAM SCHOOL

After an unbeaten record in 1950, Bootham fell away, losing six times against four wins and five draws. The captain, R. H. Baker, disappointed, but the main trouble was inaccurate bowling. The opening batsmen, J. R. Harrison and M. W. Flowers, made many excellent stands, Flowers excelling with attractive forcing strokes and also keeping wicket splendidly. Towards the end of the season J. W. Kay improved greatly as an off-spin bowler. Much promise was shown by J. Crabtree, an all-rounder, and J. Whittaker, a batsman, who should do well in 1952.

BRADFIELD COLLEGE

Bradfield were not as poor as their record of one win and five losses in fourteen games would suggest. Mostly inexperienced, they possessed no outstanding player. J. M. Chaffer, a left-hander, earned his position at the top of the batting; of the remainder S.H. F. Farr was aggressive and reliable and M. C. Parkinson and D.G. Cormack (wicket-keeper) hit hard. Farr also bowled steadily. D. J. Kerr, captain and a useful all-rounder, worked hard and the fielding was excellent.

BRADFORD GRAMMAR SCHOOL

Strength in bowling brought Bradford Grammar School another satisfactory season, five games being won, four drawn and only three lost. B. Petyt, medium-fast, was often in such deadly form that his 24 wickets cost only six runs apiece, and he was well supported by C. E. Heighton and G. D. L. Swallow. The batting was notable for consistency.

BRENTWOOD SCHOOL

A good Brentwood side did not quite fulfil expectations. The bowling of J. R. B. Meehan, R. A. Stroud and B. Goodwin reached a consistently high standard, but fielding lapses and undependable batting stood between the school and victory on several occasions. Still, only five of eighteen matches were lost. G. W. Horrex, the captain, stood alone in batting and fielding.

BRIGHTON COLLEGE

Had full advantage been taken of chances at critical periods, Brighton might have followed victories over Ardingly, Lancing and Cranleigh with others at the expense of Christ's Hospital, Whitgift and Old Brightonians. Evidence of the batting strength was that the side were dismissed only four times, but a satisfactory opening partner could not be found for D. I. Stewart. Though mainly a back player, Stewart occasionally hit very hard and he made four centuries. R. M. D. Cardew, B. Hersh and R. L. A. Enfield played some good innings, as did G. C. Smith, a fine wicket-keeper, but A. B. D. Parsons disappointed, though he is expected to improve when more experienced in captaincy. M. Stephenson and E. D. Jones were the most successful bowlers. Much is expected of I. O. Dowding, off-breaks, and G. C. Halliday, out-swingers.

BROMSGROVE SCHOOL

Bromsgrove enjoyed their best season for some years, for they won five matches by decisive margins, drew four and lost only one. T. N. Mitchell, the captain, formed the mainstay of a strong rungeting side, with able support from J. Faull and J. H. Atchley. Faull and J. M. Mitchell provided a useful opening attack, but the most successful bowler was the left-arm spinner, J. B. Wilson. The fielding, too, reached a high standard. Much was due to the coaching of George Headley, the famous West Indies batsman.

CANFORD SCHOOL

With only three of the 1950 team remaining, Canford won two and lost five of their thirteen matches. A feature of the season

was the excellent wicket-keeping of D. G. Littman, the captain, who, with B. L. G. Kenny and M. J. Harding, played useful innings The bowling was generally better than the batting, I. D. Blackburn and Kenny each achieving some excellent performances.

CATERHAM SCHOOL

Although Caterham lost only one of the eleven inter-school fixtures, N. C. J. Austing's team did not often justify the belief that they would prove the strongest all-round combination fielded for many years. Shortcomings in attack and the frequent failure of the leading batsmen to score runs when most needed were responsible for as many as seven of the fifteen matches being drawn. Five were won and three lost. M. F. Y. Cosh, the most accomplished batsman, lacked the patience needed for big scores, and, though good stroke-players, D. L. Loretto and B. I. Evans repeatedly disappointed by getting out when they looked most settled. G. F. Culverwell and P. A. Cantrell bowled well at a lively pace, but they suffered through over-use. With limited bowling talent, Austing found this unavoidable. The catching was particularly safe.

CHARTERHOUSE SCHOOL

Although involved in several close finishes, Charterhouse did not win a match, seven being lost and six drawn. The failure of the earlier batting was the main weakness, the captain, M. R. P. Young, being specially disappointing. H. C. Cairns and R. P. Carless did best among the younger players. H. M. A. Cherry-Downes, fast, was the most effective bowler, but the side felt the need for a leg-spinner or slow left-hander. J. A. C. Cann kept wicket competently. Six of the eleven stay on.

CHELTENHAM COLLEGE

Though possessing the most reliable batting for several years, Cheltenham won only three and lost four of thirteen matches. A. Whitehorn displayed remarkable consistency in run-getting, and D. J. Kelway, H. R. P. Thompson, B. M. Sullock and D. G. Mee all scored well. Mee, a good captain, could not reproduce his bowling form of 1950, and Thompson, whose off-spinners gained him a place in the Rest side against Southern Schools, did best work in attack. P. H. Blackburn, fast-medium, and G. E. L. Williams, leg-breaks, enjoyed periodical success, but the catching was uncertain.

CHRIST'S HOSPITAL

The summer of 1951 provided Christ's Hospital with reason for satisfaction. They won six of fourteen matches, including that with M.C.C., and two of the four defeats came from strong adult sides. The captain and wicket-keeper, A. Whipp, earned great success in batting, and R. L. Bell and J. C. Marvin supported him ably. The bowling lacked sting, P. L. Birkett being the most effective.

CITY OF LONDON SCHOOL

That City of London lost eight and won only two of fifteen engagements was due to batting weakness, variable bowling and patchy fielding. C. N. K. Tizard, ordinarily a good captain, did not prove so successful when conditions became unorthodox. Of the batsmen, G. J. Chidgey, aged fifteen, was the most reliable, with R. A. Leeder, a year older, a promising medium-pace bowler.

CLIFTON COLLEGE

The Clifton side was moderate, and in school matches their one victory was against Rugby. They drew with Tonbridge, Cheltenham and Sherborne and lost to Marlborough. R. C. Callinan, captain for 1952, was the one dependable batsman, though late in the summer J. A. F. M. Moore, a left-hander who did particularly well against Tonbridge at Lord's, and R. G. Newman, a fine stroke-player, put together some large scores. Apart from 71 against Cheltenham, M. B. Foyle, the captain, did not touch his best form. Foyle and the tall P. M. Carruthers, fastmedium, bore the burden of the bowling, A. J. Smith, so effective in 1950, proving a big disappointment.

CRANBROOK SCHOOL

Enjoying marked success late in the summer, Cranbrook won six and lost four of fifteen matches. A. R. C. Galpin, the captain, hit a century against Sutton Valence, but C. P. Edwards was the most consistent and rapid scorer and D. K. Penfold, who leads the eleven in 1952, three times exceeded 50. Bowling formed the side's chief strength, Galpin, able to swing either way, I. A. G. Thomson, in-swingers, B. H. Wardle, fast, and the spinners, J. M. McMahon and Edwards (left-arm) forming a well-varied attack.

CRANLEIGH SCHOOL

For Cranleigh the season was one of mixed fortune; they won five and lost five of twelve fixtures. B. W. Clements, patient but able to hit the ball hard, was easily the best batsman, and N. A. Paul and R. W. Elsdon-Dew played forcing cricket with success. Paul, fast left-arm, B. W. Clements, leg-breaks, and Elsdon-Dew, off-breaks, formed a useful attack. J. Inglis, besides captaining the side well, kept wicket efficiently.

CULFORD SCHOOL

A lack of confidence and enterprise was noticeable among the Culford School batsmen, even players of experience suffering in this respect. An exception was M. W. Prior, who batted brightly. F. E. Steel bowled his out-swingers untiringly, but the bowling generally did not impress. Three matches were won, seven lost and six drawn, a disappointing record in view of the fact that most of the previous year's side were available under the captaincy of J. S. Hercock.

DEAN CLOSE SCHOOL

One victory and five draws out of twelve games did not fairly reflect the merit of Dean Close School. Batting improved, runs were made at a good rate, and good finishes were frequent. T. Green proved an efficient captain. The school owed much to B. Flint, their professional.

DENSTONE COLLEGE

Injuries sorely troubled Denstone College, and in ten games one was won and eight drawn. L. W. Amps, the best batsman, played in only the first three matches, and J. R. F. Curry, an opening bowler, missed the last three. J. D. Short batted consistently, and A. C. Dracup kept wicket smartly in the later matches. Dropped catches often turned fortunes against the team.

DOVER COLLEGE

Some of the cricket played by Dover College was the best seen there since the war, but in results the side did not prove very successful. Five games were won, five lost and two drawn. J. W. Walmsley was the mainstay of the team, particularly in bowling. O. G. Haydock-Wilson captained his men competently, but missed catches, especially behind the wicket, were disheartening.

DOWNSIDE SCHOOL

The satisfactory record of Downside, who won four and drew six of twelve games, was largely due to the splendid left-arm slow bowling of G. Davis. He took 54 wickets for 14.14 runs apiece. Batting honours were shared by M. G. Chignell, a brilliant natural striker of the ball, though somewhat unsound in defence, J. N. Antrobus, J. A. Cummings and A. H. Squire. Except for Cummings, who was always alert, the fielding proved disappointing.

DULWICH COLLEGE

With seven old colours, Dulwich had the nucleus of a good side, but their results—five wins, six defeats and two draws—failed to come up to expectations. Inability to bowl a length against sides going for runs often turned safe positions into defeats. K. N. Taylor batted well and received good support from G. W. Cook, a sound young player. N. L. Warren achieved a splendid performance in taking eight wickets for 28 against Bedford, and J. B. Goodchild took six wickets for 15 when Beaumont, with seven wickets left, wanted only 17 runs to win and were beaten.

DURHAM SCHOOL

Durham fared moderately, winning seven games, drawing three and tieing one out of sixteen. Too often the middle batsmen had to restore the fortunes of the team, and at vital times catches were dropped. G. A. Tiffin and K. B. Hallam played several good innings. D. I. Mort, the captain, although not finding his proper form, showed he was a batsman of considerable promise. J. C. Roberts, who headed the bowling averages, proved steady.

EASTBOURNE COLLEGE

Showing better form than in 1950, Eastbourne College won four games and drew three in a programme of fourteen. They were handicapped because I. G. Watt, the captain, owing to an accident, was lame throughout the season. The loss of his left-arm bowling was particularly unfortunate. A happier feature of the season was the excellent batting of J. D. Nicholson, a promising left-hander with a powerful cover-drive.

EDINBURGH ACADEMY

The Academy won eight out of nine school matches and were unbeaten in club games with four wins and four draws. The only defeat was by Fettes. A. J. C. Cochrane, the captain, H. J. L. Allan and I. J. Addison scored most of the runs, but the side's main strength lay in attack. Allan, with leg spinners, and R. A. Grant (fast-medium) each took over 50 wickets, and N. J. Brow and S. Coughtrie gave good support. In the game against Loretto, Allan dismissed the last four batsmen in five balls, finishing the match with a hat-trick.

ELTHAM COLLEGE

Very few players of a team consisting mainly of old colours found their form. The early batsmen needed more aggression, and attacking bowlers were lacking. Fielding, though, was fast and clean. In eleven matches, three were won, five drawn and three lost.

Batting S. R. Smith J. B. Reynolds C. E. Harper C. S. Robinson †D. M. Jenkins	. 11	Not outs1 20 1 3	Runs 66 102 124 100 60	Highest inns 35* 35 29 23 22	Average 16.50 11.33 11.27 11.11 10.00

EPSOM COLLEGE

As a batting side Epsom, who won only one and drew five of twelve games, impressed, but the bowling, though varied, was not hostile on good pitches. J. S. Hall, D. A. Music and B. O. Walpole made most of the runs. Hall and Music bowled steadily and D. A. Fenner, a tall left-hander, who spun the ball with a high action, often did well.

ETON COLLEGE

Winning seven matches and drawing three out of twelve, Eton fared extremely well. The only defeats were at the hands of Eton Ramblers and I Zingari. Astutely captained by N. C. Wadham, the side were aggressive in all phases. A. C. D. Ingleby-

Mackenzie proved a first-rate left-hand batsman, P. L. Eckersley scored at a good rate, and H. E. Impey and P. L. B. Stoddart formed a solid opening pair. Eckersley also bowled effectively with the new ball on green pitches. M. J. Beaver was fast, Wadham accurate, and R. V. C. Robins (leg-breaks and googlies), after a poor start finished in great form. He took 13 wickets for 91 runs at Lord's, where Harrow just saved the game.

EXETER SCHOOL

The coaching of T. A. Dean, the former Hampshire player, helped considerably in bringing Exeter their best season since the war. The side were dismissed only four times in thirteen matches, of which six were won, five drawn and two lost. W. R. Knapman and D. N. Arnold were consistent batsmen, and Arnold and A. R. K. Smith bowled splendidly at medium pace. Valuable support came from J. M. Hodder with slow left-arm spin bowling.

FELSTED SCHOOL

Under the captaincy of W. W. Ashton, a very capable leader, Felsted won five and drew three of twelve games. Although having

only one other old colour besides himself to call on, Ashton built up a side which batted soundly and proved keen and reliable in the field. J. B. Griffiths made five scores of over fifty in thirteen innings. On occasion D. A. G. Day bowled very well, particularly when he took eight M.C.C. wickets for 43 on a good pitch.

FETTES COLLEGE

D. S. Lowe, the captain, R. Bowman and J. G. Cumming were particularly prominent in a team steady in all departments. Exceptional ability was shown in the field, fifty catches being taken. For the first time in many years the College remained unbeaten in school matches, though altogether two games were lost as against nine won and four drawn.

FRAMLINGHAM COLLEGE

Crushing defeats in the first three matches did much to destroy the Framlingham team's confidence, and not until eight consecutive losses had been suffered did they break the spell. Yet throughout that lean time they did not look a poor side. The fielding, always a fair index, was invariably sound, occasionally very good, with D. R. Hibberdine an excellent wicket-keeper. A handsome win over Suffolk Club and Ground gave Framlingham more assurance and three equally convincing victories followed. C. M. M. Ford, the captain and key man, scored most runs and took most wickets. He could be exonerated from the criticism that many of the bowlers pitched too short.

GEORGE WATSON'S COLLEGE

There were several excellent individual performances for Watson's, but the players failed to blend as a team. Seldom did the side record large totals, and the bowling fell far below the customary standard. C. A. R. Cowan took most honours, finishing at the head of both the batting and bowling averages. Of the fifteen matches played, the College won four, lost three and drew eight.

GIGGLESWICK SCHOOL

Although winning only two of their nine matches, Giggleswick were far from dissatisfied. They did well, for instance, to be beaten by no more than two wickets by St. Peter's, York, who lost to only one school side. With B. Horn and J. P. Thornber, who each made a century, the chief run-getters, the batting was sound, and an attack which looked poor at the start of the season made a big improvement through practice and concentration on the prime virtues of length and direction. The ground fielding was clean and few catches were missed. T. D. Wilson, the captain, set a fine example.

GRESHAM'S SCHOOL, HOLT

P. D. Croft was the backbone of both batting and bowling. In the same week he hit centuries against Felsted and Framlingham, and throughout the season he batted consistently well. His steady and versatile slow bowling made him easily the most successful wicket-taker, but, like the other bowlers, he deserved better support in the field. Five matches won, five lost and three drawn by a side composed mainly of young and inexperienced players was a fair reflection of the team's capabilities. The chief need was a reliable fast bowler.

HABERDASHERS' ASKE'S SCHOOL

267 284

A most satisfactory standard of play was reached, only one of nine school matches being lost as against four victories. R. E. Partington, M. S. Lumsden and the captain, D. Gainsborough, batted best, and generally the bowling, intelligently handled, was satisfactory. In school games no fault could be found with the fielding, but the team were inclined to become ragged when facing forceful and energetic club batsmen.

HAILEYBURY AND I.S.C.

Haileybury, after a poor start, showed a big improvement on 1950. One of their best performances was to beat Uppingham by nine wickets. Fine catching played a notable part in the victory. Matches with Tonbridge and Harrow were drawn, and against Wellington the most exciting game of the season ended in Haileybury's defeat from the fifth ball of the last over. Generally the Haileybury batting was sound. B. G. Thompson bowled mediumpaced right-arm with great success until an injury kept him idle. P. J. S. W. Prosser bowled off-spinners consistently well and received sound assistance from the captain, M. A. Thomas. A late choice, M. F. Bollanck, looked a promising bowler.

HARROW SCHOOL

Harrow gave promise of being a good side, but a record of three wins, two defeats and nine draws showed that hopes were not fully justified, although two of the draws were virtual victories. In J. W. E. Bleackley, a successful and painstaking captain, W. J. Foster and B. C. G. Wilenkin, Harrow possessed experienced and competent batsmen, but, although Bleackley was consistent, Wilenkin did not make the runs of which he looked capable and on the whole Foster failed in inter-school matches. No other batsman was reliable. M. Kok's splendid record of 44 wickets brought his total to 114 in three seasons. He was well supported by D. J. Hulbert, a bowler of considerable promise. On occasions Bleackley and D. G. Cooper gave useful aid. The spin bowling was not up to standard; neither was the fielding.

HEREFORD CATHEDRAL SCHOOL

In winning half their fourteen fixtures and losing only twice, Hereford owed much to good batting by J. T. Harries, M. J. Allsebrook, the captain, and C. W. Jenkins. J. E. Chadd, easily the most effective bowler, received good backing from A. Sheldon and Harries.

Batting J. T. Harries †M. J. Allsebrook A. Sheldon C. W. Jenkins G. D. Dunn D. G. Lloyd B. C. Downes H. Ellam	7 14 12 13 10	Not outs 3 2 0 3 2 2 2	Runs 269 287 69 298 163 152 86 71	Highest inns. Average . 64* 29,88 . 52* 23,91 . 26* 23,00 . 63 21,28 . 56 18,11 . 69 13,81 . 22* 10,75 . 30* 10,14

HIGHGATE SCHOOL

Highgate finished every match, winning fourteen out of fifteen. They lost to Aldenham, but beat Mill Hill, Cranleigh, King's, Canterbury, Merchant Taylors' and St. Paul's of the school sides, and M.C.C., Incogniti, Cryptics, Old Cholmeleians, Repton Pilgrims, the Common Room, Hampstead, Hornsey and Southgate of the club opposition. The chief strength lay in the spin bowling of C. Dean (slow-medium left-arm) and J. C. Dare (medium-paced off-spinners), in catching which was often brilliant, and in the good wicket-keeping of A. F. Golton, who made sixteen stumpings and four catches. It is believed that Dean's 83 wickets created a school record. W. Knightley-Smith, who played for Public Schools in 1950, and the hard-hitting Cave were the best batsmen. The team owed much to the captain, Knightley-Smith, whose field-placing was always imaginative.

HURSTPIERPOINT COLLEGE

Hurstpierpoint fell away after an encouraging start. Usually the bowling and fielding were satisfactory, but the batting, handicapped by the absence of M. J. Fisher for most matches, failed to consolidate good out-work and too many wickets were lost through half-hearted strokes. N. F. R. Marsh was the big bowling success, and R. M. James did much valuable work, as did K. D. Snowden in the last few matches.

IPSWICH SCHOOL

Ipswich lost only three matches in thirteen, won four and drew six. The bowling contained plenty of variety, but insufficient control over length caused much of its effectiveness to be lost. The best of a number of good batting performances was a century by P. A. Etherington-Smith against a strong Old Ipswichian side, whom time alone saved from defeat. In school matches Ipswich beat Framlingham, Gresham's Holt and Culford, and lost against Perse and in the return game with Framlingham.

KELLY COLLEGE

For the second year running Kelly were undefeated in school matches, victories being gained over King's Taunton, Exeter, Wellington and West Buckland. The matches against Plymouth and Allhallows were drawn in their favour and that with R.N.C. Dartmouth cancelled. Altogether Kelly won seven, drew five and lost only the last game of the season, against Old Kelleians, for whom R. H. B. Edwards scored 113. Kelly were mainly indebted to the captain, D. Paull, and P. J. Thornhill for their very steady batting throughout the season. The bowling was uncertain, but the youthful W. P. Martin showed promise with swing and P. J. Warren gained frequent success with off-breaks.

KING EDWARD'S SCHOOL, BIRMINGHAM

King Edward's, Birmingham, won eight matches against their four defeats. In batting, the captain, P. A. Gough, was most reliable, and he received good backing from F. B. Revill, J. L. Wilkins and B. C. Homer. Usually all made their runs attractively and at a reasonable pace. The bowling depended largely upon O. S. Wheatley (medium-fast) and J. Hutchings (off-breaks). Between them they took 100 wickets. D. H. Benson and P. A. Gough, both leg-break bowlers, attained a useful standard, but the lack of another successful opening bowler was a handicap.

KING EDWARD'S SCHOOL, STOURBRIDGE

With nine wins to set against three defeats in fourteen matches King Edward's, Stourbridge, were well satisfied. As in 1950, B. F. Fieldhouse was the most successful all-rounder. Although P. A. Shaw finished with the highest batting average he was not so consistent as F. G. Kitson, the chief run-getter.

KING'S COLLEGE SCHOOL, WIMBLEDON

Lack of pace bowlers and poor batting against good bowling handicapped K.C.S., Wimbledon, who won only one school match, against Berkhamsted. They drew with Whitgift, King's, Canterbury, and St. John's, Leatherhead, and lost to U.C.S. and Beaumont. The fielding, uncertain in early games, reached a high standard towards the end of the season. J. J. Peters, still young, and R. H. Rham were the pick of some promising batsmen. K. J. Burton and D. D. C. Belchamber provided an average spin attack.

KING'S COLLEGE, TAUNTON

Only two old colours, J. Hunter-Watts, the captain, and D. B. Gosheron, were available to King's College, Taunton; yet the side

were above average, particularly in batting. Gosheron shaped most attractively, but Hunter-Watts seemed to be affected by the cares of captaincy, although he did well with the ball. N. S. Bathurst and M. J. Blake showed promise as spin bowlers, and the fielding was consistently good, with N. J. Giles a sound wicket-keeper.

KING'S SCHOOL, BRUTON

Weak batting was responsible for the poor record of King's School, Bruton, who won only one and lost seven of eleven games. The fielding, too, disappointed, and much excellent bowling by M. A. Stokoe and T. W. D. Hill did not bring the reward it deserved. Against Downside, Stokoe took all ten wickets for 29 runs. The captain, R. G. Akhurst, batted vigorously and handled the side thoughtfully.

KING'S SCHOOL, CANTERBURY

Apart from the lack of a left-arm slow bowler, King's were almost the complete side. The batting was excellent, runs nearly always being scored consistently and quickly. P. J. Wacker, who made three centuries, obtained them at the rate of 60 an hour, and the other century-makers, R. O. A. Norris and B. E. Lee, the captain, also hit the ball hard. Phillips was again the most successful

bowler and many were surprised that he was not chosen for the Schools match at Lord's. R. M. M. C. Mallinson kept wicket splendidly. In eight matches he did not concede a bye and he allowed only 26 in 2,196 runs scored against the School.

KINGS' SCHOOL, ELY

A very young and inexperienced side, Kings', Ely, began well and then deteriorated, but gained a good final record of five games won against three lost, four being drawn. R. M. Ray, the captain, batted soundly and P. H. Philbedge with commendable aggressiveness, but the bowling disappointed, neither P. Boorman nor P. D. Turvey reproducing 1950 form.

Batting †R. M. Ray. P. H. Philbedge N. Holland P. D. Turvey	12	N 	ot ou 3 0 0	ts	Runs 236 283 135 153	Hig	hest ir 36* 50 47 32	nns.	Average 26.22 23.58 15.00 12.75

KINGSWOOD SCHOOL

J. W. F. Mundin, the Kingswood captain, began with only two other old colours available, N. F. Lockhart and J. G. Smith, but so splendidly did they shape that the side enjoyed a good season, winning six and losing two of thirteen games. Lockhart, an admirable wicket-keeper and left-handed batsman, made 506,

average over 50, and Smith took 59 wickets, both School records. H. R. Moore was another good left-handed batsman and Mundin a sound leader of a side which might have done better with safer catching.

LANCING COLLEGE

Although winning only one and losing five of fourteen games, Lancing found much consolation in the season. They possessed the best opening batsman since the war in C. B. Smart, and A. G. Cochrane, J. M. Sanders and J. S. M. Hunt all showed good batting style. In addition the fast-medium bowlers, M. J. Jacobs, J. K. Hall and J. M. Woodhouse all enjoyed successful days. The wicket-keeping form of C. J. Crawford was very encouraging.

LEEDS GRAMMAR SCHOOL

Fulfilling their 1950 promise, Leeds Grammar School gained the fine record of eleven wins, two drawn games and two defeats. S. G. Metcalfe, the captain, who hopes to go to Oxford in 1953 after National Service, batted aggressively yet with remarkable consistency. He received good support from J. G. Raybould, an

all-rounder, P. J. Wagstaff, D. L. Wright and J. D. Hardaker. The side possessed plenty of bowling, W. Seddon gaining deserved reward for accuracy, and they also maintained a high standard in the field.

LEIGHTON PARK SCHOOL

In inter-school games Leighton Park were very successful, and their final record of six wins, four losses and three draws was creditable. The batting was consistently good, the players showing a refreshing willingness to hit hard. D. H. Simmonds, on his day steady and dangerous, did best among a set of bowlers lacking variety. In fielding, the captain, J. A. Parry, set a fine example.

THE LEYS SCHOOL, CAMBRIDGE

Winning four school matches and drawing the other two, the Leys, largely owing to determined and capable batting, enjoyed a

good season. N. R. Nesbitt, who made two centuries, did particularly well, and he received capable support from A. B. Thomas and E. Blenkinsopp. The bowling disappointed, although J. D. Broughton displayed much improvement and K. M. Pigott looked likely to develop into a good left-hander. G. D. Whitaker, a sound captain, kept wicket well.

Batting

LLANDOVERY COLLEGE

Llandovery played better cricket than their record of four wins, eight draws and five defeats suggested. D. H. Williams, a good captain, made runs consistently well, P. Charles, a left-hander, was a reliable opening batsman and C. G. Jones improved rapidly, but the others often failed. D. J. Harrett played several hard-hit innings and kept wicket splendidly. As in 1950, the opening bowlers, D. H. Williams and D. I. G. Taylor, bore the burden of the attack.

Batting †D. H. Williams P. Charles C. G. Jones D. J. Harrett G. F. Bowen P. J. Y. Scott	Innings 17 17 15 17 16 16	N	ot ou 0 6 2 1 2	ts	Runs 517 181 189 213 176 165	Hig	hest inns. 90 28* 51* 49 51* 28*	Average 30.41 16.45 14.53 13.31 12.57 11.00

LORETTO SCHOOL

Loretto commenced with three commendable victories, but defeat against Edinburgh Academy seemed to take some heart out

of the side. Only two further successes were gained, four matches being lost and six drawn. D. N. H. James, an admirable captain, D. I. A. Craig and J. P. Stokoe played many fine innings. The attack was a good deal more accurate than in the previous two seasons, H. B. Langlands showing great promise as a spin bowler.

MAGDALEN COLLEGE SCHOOL, OXFORD

The excellent all-round play of T. A. Gibson formed a feature of a season during which the Magdalen team was deprived of several victories by poor fielding and lack of patience. Gibson batted soundly and achieved considerable bowling success by clever flight and variations of pace. J. W. Carter also rendered good service with the bat, and S. C. Coles kept wicket well.

MALVERN COLLEGE

Malvern owed much to their captain, R. H. Chadder, for the fact that they remained immune from defeat until the last game of the summer. The side possessed a decidedly aggressive spirit and would have won more matches had the bowling been more effective. T. J. Smellie showed most hostility and B. J. C. E. Pegley enjoyed

good spells. Chadder, by far the most effective batsman, exercised fine concentration and displayed ability to punish short balls. Pegley and J. O. Rust both hit hard, and R. K. Whiley and R. H. E. Russell revealed distinct promise.

MANCHESTER GRAMMAR SCHOOL

At the beginning of the season, better results were expected from Manchester Grammar School than the eventual record of nine wins, eight draws and three defeats. R. L. Grant batted aggressively and I. Gibson also did well, but collectively the batting lacked soundness. A. B. Shelmerdine and A. J. Dover bowled with sustained hostility, but the fielding was not always adequate.

MARLBOROUGH COLLEGE

Marlborough possessed a side of average strength, a fact reflected in their record of four wins and four losses in fourteen games. The best performances were victories over M.C.C. and Free Foresters. M. F. Pope and R. C. Keightley, the captain, batted attractively, and D. F. R. Lord usually gave the side a sound start. By far the most dangerous bowler was J. A. Kidd, who received excellent support in the field.

MERCERS' SCHOOL

Although injury prevented the captain, S. E. R. Andrews, from playing in some matches, Mercers' enjoyed a successful season, winning six and drawing five of fourteen matches. R. V. Lord, who again hit a century, Andrews, L. C. Johnson and J. K. Bunner were the most reliable batsmen. Johnson (fast) took all ten wickets for fourteen runs against Bancroft's, but generally the bowling lacked hostility and variety, though B. E. Pestell and M. J. Holden afforded steady support.

MERCHANT TAYLORS' SCHOOL

With a record of two wins, six draws and five defeats, Merchant Taylors' did not do as well as expected, disappointing particularly

in inter-School matches. The chief weakness lay in the middle batting. The opening batsmen, H. R. Hutton and C. H. Burrell, were nearly always reliable. In the capable hands of J. A. Prodger, who led the side well, J. D. Blumsom and R. Wolley, the bowling generally commanded respect.

MERCHISTON CASTLE SCHOOL

Weakness in batting prevented Merchiston from enjoying greater success. A good, varied attack atoned in part for this failing, and altogether five of nineteen fixtures were won, nine lost and five drawn. J. C. Mackenzie, the captain and fast bowler, will be at Cambridge next season.

MILL HILL SCHOOL

Beginning the season with only three old colours, the Mill Hill team developed into a reasonable blend of youth and experience. They gained excellent victories over Dulwich and Aldenham, and earned creditable draws against M.C.C., Masters and St. Paul's. The batting did not depend on a particular individual, four players obtaining scores of fifty or more. J. G. Dean and C. M. Wesson bowled accurately for long spells, though not always with satisfactory support from the field.

MONKTON COMBE SCHOOL

In gaining five victories in thirteen matches and remaining unbeaten, Monkton Combe owed much to G. N. Hurrell, the captain, who set a splendid example in the field and headed the batting averages. A. A. Wildish, although not always reliable, proved an aggressive stroke-player. W. J. Wadsworth, with legbreaks, bowled skilfully and received able help from D. G. Sandy, medium-pace, and D. J. Green, fast-medium.

MONMOUTH SCHOOL

Benefiting from the shrewd captaincy of R. J. Bennett, Monmouth achieved several notable successes and their record of five wins, four defeats and two draws was better than it appeared. Bennett showed dependability in run-getting and kept wicket efficiently; but perhaps the most heartening aspect of the year was the form of R. J. Barber, opening batsman, and D. R. Thorne and D. J. Rees, bowlers.

MOUNT ST. MARY'S COLLEGE

After losing two early games, Mount St. Mary's improved so much that they were able to declare in each of their last seven fixtures. Consistent batting, good bowling and alert fielding, especially by the wicket-keeper, R. F. Rigby, who claimed twenty-one victims, contributed to a highly successful summer. J. F. Power, an all-rounder of marked ability, led the side well.

NEWCASTLE ROYAL GRAMMAR SCHOOL

A singular lack of confidence and enterprise about the Newcastle Royal Grammar School batting often wasted the advantage won by the excellent fast bowling of J. N. Watson. This player, whose 54 wickets cost less than six runs apiece, also gave several competent batting displays. He and E. W. Middleton played a leading part in the five wickets defeat of University College School in July.

OAKHAM SCHOOL

Unreliable batting, which too frequently collapsed after a good start, prevented Oakham from gaining more than three victories in thirteen fixtures. The team were young, however, and with several of the players available for next season, should profit from experience. P. R. Forman, the captain, showed himself a capable all-rounder.

ORATORY SCHOOL

In their best season since the war, Oratory were concerned in only one drawn game, while ten were won and nine lost. Apart from J. B. Phillips, the captain, E. R. Arundell and H. M. Dine, the team consisted of young, inexperienced players and tended to rely overmuch on the performances of Phillips and Arundell. Both responded excellently, despite weaknesses in the field which cost many matches. A notable exception was the wicket-keeping of C. H. Castle, which always reached a high level.

OUNDLE SCHOOL

Winning only two of their fourteen matches, Oundle failed to justify expectations. An injury at the start of the term kept M. J. O. Massey, wicket-keeper and opening batsman, out of the side for all but three games, and without him the batting seldom impressed. J. M. Pickard handled his limited attack wisely and bore the main burden with accurate off-breaks.

PERSE SCHOOL

Perse would have won more than three of fifteen matches had they pressed home the advantage often gained by the excellent bowling of R. A. Neaves and B. Reed. The batting often gave the impression of being sound, but inexplicable failings resulted in a number of disappointing displays.

M. H. Wakelin; J. K. Rusted	15	Not outs 3 0	Runs 165 199 90	Highest inns 41	Average 16.50 13.26 11.25

RADLEY COLLEGE

All-round ability contributed to Radley's record of only one defeat in fourteen matches. The strength of the batting could be judged from the fact that, against Sherborne, the side scored 367

for nine wickets in a little over four hours. C. E. B. Carr, A. C. Walton, a capable leader, and E. R. Dexter, a promising young all-rounder who scored 94 against Free Foresters, possessed talent above the average. J. D. Dexter, a fast bowler of obvious possibilities, and C. M. West, were the best of a well-varied attack.

READING SCHOOL

Apart from consistent batting by the captain, J. C. Rudd, and R. E. A. Steward, the most encouraging feature of Reading's cricket was the advance of several young players. Chief among these were M. E. Howe-Jones, a most promising all-rounder, and H. B. M. Birtchnell. The fielding, particularly keen, often proved the decisive factor in the success of the team. The high proportion of eight draws in seventeen matches was due largely to limited playing time. Six matches were won and three lost. Rudd played for Berkshire in the Minor Counties Championship during the summer.

REPTON SCHOOL

Repton could scarcely have wished for a more satisfying record. Unbeaten in all matches, they defeated Uppingham, Cheltenham and Rugby, and drew with Shrewsbury and Malvern, the last being

Public School Cricket in 1951

a moral victory. A. C. W. Lewis and A. H. P. Beater stood out as all-rounders and J. M. Cropper, captain for 1952, R. L. Grew and J. F. M. Walker made useful scores. In a steady and sometimes dangerous attack, W. H. M. Pyne maintained accuracy for long spells. A. G. P. Weir, slow, P. M. Cope, fast-medium, provided admirable support. The whole side fielded skilfully, E. E. Greenhalgh making a marked improvement as a wicket-keeper.

ROSSALL SCHOOL

With only four members of the strong 1950 side available, Rossall did creditably to win six of the fourteen fixtures and experience only one reverse. Except for a disastrous collapse against Sedbergh, the batting never failed. This was largely due to the remarkable form of M. E. L. Melluish, the captain, who as opening batsman scored 913 runs, a record aggregate for the School. S. L. Watson, an efficient all-rounder, and B. R. Fox, fast-medium, created excellent impressions, and a newcomer, D. A. Rutherford, slow left-arm, flighted the ball well.

RUGBY SCHOOL

For the first time in several years, Rugby, who won six matches, drew six and lost two, possessed a solid batting side. M. A. Eagar, the most accomplished batsman, made over 600 runs, including two centuries in successive matches; R. A. Hunt, a very fast scorer, hit a brilliant 98 at Uppingham; M. R. Ludlow distinguished himself at Lord's and three others reached 50 at least twice. The bowling also was far from negligible. J. M. D. Chapman bowled fast for long spells without losing length or accuracy, Hunt and J. G. W. Davidson were also above medium pace and J. J. M. Barron and M. J. S. Preece spun the ball effectively. F. Francis, a wicket-keeper of more than average skill, handled his resources very capably. Yet, despite their all-round strength, the side did not win one of the school matches. Draws with Uppingham, Oundle and Marlborough all favoured Rugby, but defeats were suffered from Clifton and Repton.

RUTHIN SCHOOL

Exceptionally strong in attack, Ruthin won seven of the eight inter-school fixtures and altogether gained fourteen victories in twenty-two matches. Four were drawn and four lost. Perhaps the finest achievement was against a team brought by A. Booth, the former Yorkshire professional. Ruthin, declaring at 207 for four, dismissed their opponents for 58. R. W. Barber, the team's leading

Public School Cricket in 1951

all-rounder, excelled in this match, scoring 77 and, with left-arm spinners, taking six wickets without cost. He and R. Duray-Aiyar. a bowler of appreciable pace, played for North Wales Schools and Denbighshire. P. Salt, the captain, was chiefly responsible for the splendid spirit of the team, several of whom remain for 1952.

RYDAL SCHOOL

Unexpected failures by recognised batsmen mainly accounted for Rydal's poor showing. Of nineteen fixtures, only five were won and seven, including five against schools, ended in defeat. Nearly every member of the eleven was capable of making runs, but only rarely did anyone show sufficient concentration and determination to play a long innings. The most encouraging form was that of two young players, P. Blatherwick and C. S. Brown. Unlike the batting, the bowling proved more effective than expected. D. V. Williams and J. F. Morris, both medium-pace, did well, and J. P. Rogers might have gained even more success with off-breaks had his field been better placed. All owed much to the excellent work of the captain, E. N. Dale-Jones, behind the stumps. At least eight players remain for 1952.

ST. ALBANS SCHOOL

With L. J. Holt as the only old Colour, the St. Albans captain, G. P. Mills, faced a difficult team-building task with marked success. The first two matches ended in defeat, but the side improved steadily and lost only once more. Four matches were won, two drawn and one abandoned. Holt's batting disappointed until he struck form late in the season, but he bowled off-breaks skilfully. P. J. Lord, a confident and stylish stroke-player, proved the most consistent batsman and kept wicket well. M. Tant bowled particularly well with the new ball.

ST. BEE'S SCHOOL

Although several members of the 1950 team remained, St. Bee's won only five and lost eight of their sixteen matches. The captain, D. G. Holliday, improved considerably with the bat, but his bowling underwent a comparable decline.

ST. DUNSTAN'S COLLEGE

R. J. Smith, the St. Dunstan's captain, enjoyed much personal success in a season which brought seven wins, three draws and five defeats. His stroke-play bore the stamp of maturity, his wicket-keeping was seldom at fault and his enthusiastic leadership inspired a spirit of keenness. His best support with the bat came from J. B. Allen. D. A. Mills, a slow off-spinner, kept a consistently dangerous length, and in the field J. G. Malone and B. M. G. Polin excelled at cover and short-leg respectively.

ST. EDWARD'S SCHOOL, OXFORD

As their record of six defeats, eight draws and only one victory indicates, St. Edward's showed indifferent form. In some school matches, the team played particularly badly; yet against M.C.C. and Stowe they gave very good accounts of themselves. The side lacked a leg-spin bowler and depended for runs too much upon M. E. and D. C. Thorne. The most heartening feature was the fielding, which generally was admirable.

ST. PAUL'S SCHOOL

Despite the services of two outstanding schoolboy batsmen in the captain, G. Nolan, and D. B. Tapley, St. Paul's could do no better than win three and draw five of fifteen matches. The bowling, depending mostly upon the fast-medium out-swingers of M. Baker, lacked variety. Nolan hit three centuries, 120 not out against Mill Hill, 113 against Dulwich and 106 against M.C.C., in addition to 92 not out against Brighton. Tapley, not yet 17, scored 109 against Old Paulines and 116 against M.C.C. The fielding was good, particularly that of Nolan behind the stumps, Tapley at cover and G. B. Barter, Baker and R. B. Atkinson in the slips. Tapley, captain in 1952, should have at least seven others of the side available.

ST. PETER'S SCHOOL, YORK

For the second successive year St. Peter's went through the summer unbeaten by another school, six of the seven fixtures being won. The other, against Ampleforth, ended in a tie. Altogether, eight matches were won, four drawn and only one lost. Much credit was due to the shrewd captaincy of N. M. Hodd, a very useful batsman, and the excellent bowling of J. J. Youll and P. D. F. James. Giggleswick and Leeds were the only schools to reach three figures against this attack. G. B. Pullan and D. H. Beachell gave Hodd best support with the bat.

SEDBERGH SCHOOL

Under the capable leadership of R. H. Umbers, Sedbergh showed a spirit of aggression and determination which made them capable of winning matches apparently lost. Early defeats by two strong club sides did not dishearten them and they finished with six victories and two draws from eleven matches. Perhaps the outstanding achievement was the crushing defeat of the formidable Rossall team, who were dismissed for 49 under ideal batting conditions. In this, as in most other matches, the bowling honours were shared, for in attack the team did not rely upon any special individual. By contrast, Umbers was easily the most consistent batsman; he received appreciable support from T. McClung and J. Hinds. The fielding was always sound and often proved the match-winning factor.

SEVENOAKS SCHOOL

Sevenoaks batsmen were always capable of making many runs on hard, true pitches, but against good spin bowling on

responsive turf they had very little idea of how to keep their wickets intact. This failing partly explained the fact that five of the eleven fixtures were drawn and only two won. In addition, the bowling, mostly fast-medium, lacked subtlety and variety. Though sound, the fielding could have been swifter.

SHERBORNE SCHOOL

Exceptional batting strength made Sherborne difficult to beat, but as this was offset by unusual weakness in attack, only three matches were won, three being lost and seven drawn. In the absence of reliable new-ball bowlers, the spinners carried the main burden. Of the batsmen, none was more promising than B. D. C. Shields, whilst D. I. Gillespie, the captain, and C. R. Dawnay, his opening partner, gave one of the finest batting displays seen for a long time when scoring 50 in the first eighteen minutes against Marlborough. No school match was won and those against Blundell's and Westminster ended in defeat.

SHREWSBURY SCHOOL

Inability to score quickly was the chief reason for Shrewsbury's being concerned in the remarkable number of eleven drawn matches. Only three, none against other schools, produced definite results and of these two were lost. Lack of experience among the many youthful members of the side meant that caution was always the keynote of the batting. Nevertheless, D. A. Spencer proved repeatedly that he possessed ideal temperament and concentration in a critical situation and he should make many runs for the school in future seasons. M. A. Hill, only fifteen, and M. P. Ward, the captain, also displayed sound technique. Ward was the most effective bowler in a very moderate attack.

SOLIHULL SCHOOL

Although the young Solihull team played brighter cricket than in the past, too much reliance was placed on G. A. J. Downman, the captain, and W. J. Danter, the only players remaining from the previous season. Downman and Danter did most of the rungetting and bowling. Of the thirteen games played, three were won and four lost.

STAMFORD SCHOOL

Winning all their matches against other schools, Stamford enjoyed one of their best seasons. M. J. K. Smith, the captain, again dominated the batting, receiving sound support from J. P. Neale and the two all-rounders, G. S. Hopper and R. C. Smith. M. J. K. Smith, Hopper and R. C. Smith did well in attack and D. L. Perkins came to the fore in the later games with medium-paced off-breaks.

STONYHURST COLLEGE

Favoured by many true pitches, Stonyhurst excelled in batting, the players gaining in confidence and stroke-play as the season progressed. The bowling, however, lacked hostility, and that handicap accounted for all the school matches being drawn, for never did the side force home the advantage of a substantial score. P. S. Delisle, who hit 165 against Denstone in three hours, always batted in splendid style at number five. The best bowler was M. L. Voller; he delivered his slows with more than usual promise and worried even the most efficient batsmen.

STOWE SCHOOL

A weakness in bowling, where too much depended on P. G. Harris, who opened with medium-fast right-arm deliveries, prevented Stowe from becoming a good all-round combination. Harris worked very hard, bowling considerably more overs than anyone else, but did not meet with the success he enjoyed during the previous year. The batting was sound without any particular player coming into prominence. The fielding, if not always reaching the expected standard, proved competent.

TAUNTON SCHOOL

Fielding lapses cost Taunton dearly, for these were mainly responsible for six of their fourteen matches being lost and only three being won. The batting of a young team was generally adequate and the bowling was reasonably good. The captain, J. Baker, headed both the batting and bowling averages, and he was ably supported in the attack by K. J. Richards (leg-spin).

Batting †J. Baker J. M. Woolley K. J. Richards D. P. Horne C. H. Shaw	11	Not outs 3 1 4 1	Runs 396 196 137 217 144	Highest inns 95* 42 59* 28	Average 36.00 21.77 19.57 16.69 16.00

TONBRIDGE SCHOOL

The revival of aggressive batting by B. D. Hatley and K. W. Pearce was the main feature of an exciting season. The only criticism that could be levelled at the batsmen concerned reluctance to use their feet against the slow bowlers. The bowling did not impress, but Pearce and J. F. Campbell worked hard. Mainly through the limitations in attack, only three out of thirteen games were won; four were lost.

TRENT COLLEGE

N. Armstrong, the captain, again overshadowed the remainder of the team and for the second season scored over 500 runs. Despite his splendid performance the results were poor, only one match being won out of thirteen played, with six drawn. The rest of the batting was timid and slow. In attack J. M. Wadland was distinctly fast and M. C. Hall, a leg-break bowler, and Armstrong (in-swingers) also met with success.

TRINITY COLLEGE, GLENALMOND

Trinity College were fortunate in having capable batsmen from the opening pair, M. R. Cornwall-Jones and M. Campbell, down to Number 10. Consequently the captain, E. R. Paton, an enterprising and attractive cricketer, found many opportunities to declare, but a weakness in spin bowling often prevented advantages from being maintained. Eight of the seventeen matches were drawn, four won and five lost.

UNIVERSITY COLLEGE SCHOOL

.. 36

Under the enterprising captaincy of P. J. Caston, University College School should have fared well, but the batting fell below the required standard. Caston himself was aggressive and made some shrewd declarations, yet he rarely produced his true form. The whole team reached a high standard of fielding and none did better than C. J. Parry at cover who developed into a valuable all-rounder.

UPPINGHAM SCHOOL

Uppingham were by no means as poor a side as their record of five losses and seven draws suggested. They were potentially strong in batting and always played interesting, lively cricket. The weakness was in bowling, although J. A. L. Oswald proved consistent and J. S. Leppington, a left-arm slow-medium bowler, worked hard. The fielding generally was keen.

†F. C. Samworth R. M. Young R. M. Corner M. I. Robinson J. J. Johnson D. S. W. Lee M. N. Turner J. S. Leppington T. M. WELLINGBOROUGH SCHOOL

Batting failures in the opening games were the cause of the poor record (won two, drawn six, lost five) of a reasonably powerful Wellingborough eleven which finished strongly. M. W. White led the side with spirit and did well with bat and ball. M. D. Duck, a 14-year-old all-rounder, enjoyed a successful maiden season and A. E. Wright bowled out-swingers steadily.

WELLINGTON COLLEGE

The Wellington fielding generally was poor but consistent batting by R. O'Brien, the captain, assisted by R. D. W. Norris and J. M. Bertin, a 16-year-old left-hand batsman, helped the side

to three wins out of the thirteen games played, three being left drawn. A. M. Douglass, who bore the burden of the attack, seldom received adequate support, although M. D. Fitzmaurice, coming into the team in the middle of June, took eighteen wickets with his leg-breaks.

WESTMINSTER SCHOOL

Westminster, fielding a young team under the experienced direction of C. C. P. Williams, enjoyed a most successful summer, winning nine and drawing three of their fifteen matches. Williams, chosen for the Southern Schools at Lord's, dominated the batting and was also a useful change bowler. One of the junior members of the side, D. M. Jones, worried many of the opposing schools with his leg-breaks. He took forty-three wickets.

WHITGIFT SCHOOL

Although unbeaten by any other school side, Whitgift did not experience a particularly satisfying season. The number of drawn

games—nine out of sixteen, three of which were lost—was often due to moderate bowling and poor fielding. The batsmen could generally be relied upon, with A. B. Squires the most consistent, but the attack, although steady, lost many of the advantages gained.

Batting A. B. Squires D. S. Straw M. P. Arscott M. F. Evans R. K. Woods	16 14 16	N	ot ou 4 0 4 2 1	its	Runs 403 382 230 314 240	Highest inns 78 67 79 81* 43	Average 40.30 23.87 23.00 22.42 20.00

WILLIAM HULME'S GRAMMAR SCHOOL

The splendid all-round form of the captain, C. S. Smith, who played three times for the Lancashire County XI and represented Public Schools against the Combined Services, was chiefly instrumental in William Hulme's Grammar School winning nine matches. Only one defeat was suffered in fifteen games. Smith's accurate fast bowling allied to the splendid showing of J. K. Glover, a newcomer, provided such a formidable attack that others were rarely called upon. So frequently were opponents dismissed for low scores that batting required little concentration. Only twice was the side all out.

Batting †C. S. Smith G. B. Lawson R. J. Winfield D. Cooper D. M. Archer R. C. Shaw	Innings 13 14 14 14 14 8	Not outs 5 3 4 1 2	Runs 311 315 252 278 139 97	Highest inns 73* 117* 41 80 36 59	Average 38.87 28.63 25.20 21.38 19.85 10.77

WINCHESTER COLLEGE

The moderate batting form of the captain, M. R. Coulman, whose performances bore no comparison with those of the past two seasons, could not have been anything but discouraging to

the rest of the Winchester side, who experienced a poor season. They lost six games, drew five, and won against Harrow, Charterhouse and Bank of England. R. M. J. Burr and I. H. McCausland were the only convincing batsmen. Although M. D. Scott, the wicket-keeper and next season's captain, scored a century against Marlborough, once again he looked a batsman who should make more runs than he did. G. P. Scott, who goes to Cambridge, was handicapped by an injury early in the season. The attack lacked variety. Most impressive of the bowlers were I. H. McCausland (off-breaks) and J. J. Grafftey-Smith, potentially a useful seam bowler.

WORCESTER ROYAL GRAMMAR SCHOOL

R. G. Woodcock's all-round record was the best in the Worcester Royal Grammar School's history. He headed the batting, which was much improved on recent years, and, in dismissing 93 batsmen with left-arm slows, gained more wickets than any other Public School bowler during the summer. Woodcock received good support from B. White (fast) and M. A. Norman (off-spin). E. C. Clarke, the wicket-keeper, caught eight and stumped thirty opponents. Eleven matches were won and three lost.

WORKSOP COLLEGE

The lack of a fast bowler was keenly felt by Worksop College who, after losing three fixtures during an uncertain start, won three and drew four games. F. R. T. Bulley and R. J. McGill, both medium-pace, occasionally met with success, but the young slow bowlers lacked experience. D. T. Forbes, a greatly improved opening batsman, and R. S. Wood generally made runs, and some aggressive hitting came from J. B. Somers, an efficient wicket-keeper.

WREKIN COLLEGE

P. L. Boardman, a newcomer, displayed promise of all-round capabilities during a season when Wrekin won three matches, lost four and drew eight. C. P. W. Lyon more than doubled his aggregate for the previous year, and B. P. Shaw was almost similarly successful. In attack, P. T. Grundy proved the most consistent, and the fielding, in which J. I. Gartside, the captain, set a fine example, always looked sound.

WYCLIFFE COLLEGE

Five victories, four draws and four defeats represented the efforts of an experienced Wycliffe team lacking in consistency. P. H. Fisher, impressive on occasions, and J. Ganz, courageously aggressive, batted well but not until W. F. P. Waymouth found his form late in the season was there any solidarity. Ganz proved the best of a limited attack well handled by P. J. B. Michell, whose leadership helped to maintain a high standard of fielding.

WYGGESTON GRAMMAR SCHOOL

Frequently Wyggeston Grammar School gained the initiative in the early stages but not one match ended in victory. Five were drawn and six lost. Curiously, when the batsmen struck good form the attack failed, and vice-versa. K. W. Beresford, who headed the batting averages, might have been even more successful had he curbed his impetuosity. S. Oates, a left-arm slow bowler, showed promise.

BEDFORD v. TONBRIDGE

At Bedford, June 1, 2. Bedford won by an innings and 83 runs. In neither nnings did the Tonbridge batsmen settle down against the spin bowling of Street and Collinge, whose match figures were seven for 85 and six for 44 respectively. For Bedford, Wynn-Williams hit a chanceless century and shared in a hardhitting partnership of 106 with Meeson.

At Rugby, June 8, 9. Clifton won by five wickets despite a remarkable first innings collapse in which their last seven wickets fell to Chapman and Prece for six runs. Eagar alone held the Rugby batting together against the sharply lifting deliveries of Carruthers, who took five for 15 in the first innings. Contlinuous drizzle handicapped the bowlers when Clifton tackled their task of scoring 163 in three and a quarter hours.

AMPLEFORTH v. ST. PETER'S

At Ampleforth, June 13. A tie. After the fast, dry pitches of previous weeks batsmen on both sides found the damp turf difficult. The result was a most exciting game in which the outcome was in doubt until the last moment. Wynne played a very fine innings and while he remained Ampleforth seemed likely to succeed. Blackledge took five for 22, James six for 19 and Youll four for 29.

WINCHESTER v. ETON

At Winchester, June 29, 30. Eton won by 62 runs. They fought back magnificently after finishing the first day in an apparently hopeless position. After winning the toss, Eton struggled against accurate and lively bowling supported by fielding of the highest order, and for the first time for many years the first innings of the match ended before lunch. Although troubled by Beaver's medium-paced deliveries, Winchester went ahead for the loss of five wickets, thanks to a spirited partnership between McCausland and G. P. Scott, and their lead of 66 looked even more formidable when Eton lost Impey and Pilkington for seven runs before the close. On the second day the left-handed Ingleby-Mackenzie launched a vigorous attack on the bowling that altered the course of the match. His example was followed by Eckersley and Wadham, with the result that Winchester were set to make 183 for victory. Coulman, scorer of 459 runs in the three previous matches with Eton, for the second time fell cheaply, and, encouraged by this early success, the Eton bowlers did not permit Winchester to regain the initiative.

WELLINGTON v. HAILEYBURY

At Wellington, July 13, 14. Wellington won by three wickets after a generous declaration by Thomas. The match was notable for several fine batting performances, notably those of O'Brien, Eastgate and Philpott. Prosser bowled well in taking six for 78 in the Wellington first innings but, with O'Farrell, came in for severe punishment in the second when Wellington needed runs quickly.

CHELTENHAM v. MARLBOROUGH

At Cheltenham, July 20, 21. Drawn. Pope batted splendidly for Marlborough and Sullock gave Cheltenham a good start. The innings broke down against the slow off-spinners of Kidd (seven for 47), and a bowler of similar type, Thompson, caused most trouble to Marlborough. Thompson gained match figures of ten for 96. Cheltenham found the task of scoring 208 in under two and a half hours too much.
