NEWBERY STORY

From humble origins in the early 1900's in East Sussex, England, through to worldwide accolades. Newbery combines tradition, legends, innovation and master craftsmen.

The Newbery story begins with Len Newbery, a highly skilled bat-maker and master craftsman, naturally he passed down his highly skilled legacy to his only son, John Newbery, who carried-on the skill with great success.

Together, their Newbery philosophy, the English heritage, their passion and legacy is still used and is emphatically understood today.

UNIQUE COMPETITION PRICE FOR THE GRADE 1 MATCH BALL

At Newbery we are dedicated to creating the best quality products at the most competitive prices. Our white ball has been many years in the making but we now feel it is at the very best standard to offer fantastic performance. White ball cricket continues to become a more dominant format in the game and we want to help support and grow this format by offering a great quality ball. This will increase the standard of the games and help improve player development and skill levels.

SPECIAL OFFER

Having trialled Newbery's White Grade 1 cricket ball this winter, they have been very good and are very similar to the international standard white ball. I have to say they have performed better than any other white ball on the market. These balls are perfect for preparing players for the next level up.
